

Gold Medal - 1003S Sno-Konette

The Sno-Konette was the world's first complete sno-kone® with display case. The Sno-Konette features a 1/3 HP, 1725 RPM high-speed shaver mounted on an extruded aluminum cabinet. The "motor box" effectively hides the motor. The switches are mounted in the box. To operate, simply lift the pusher handle, fill with chunks of ice, turn on the motor and pull the handle. You can vary the fineness of the finished snow by using colder ice, putting less pressure, or setting the blades to shave more finely. The Sno-Konette could very well pay for itself in one busy afternoon. Shaves up to 500 lbs. per hour. Accessories included are the cup dispenser, Sno-Kone® Dipper, Ice Scoop and Drain Pan.

Additional Features:

- Tempered Glass Windows
- Stainless Steel Motor Box

\$819.00
