

# Gold Medal - 5300 Nacho Machine

Maintains air tight control over your cheese sauce, extracting more out of every bag and extending the cheese life. Virtually no cleaning internally, because the cheese never touches the machine parts. Faster loading, easy to line up the pump. Space for a second bag to preheat inside. Now with three button dispensing control, adjustable settings, and improved air flow. UL approved! This Cheese Dispenser works with almost any brand of bagged cheese. For best results, use bagged cheese #5278 or #5279.

#### Additional Features:

- Product Dispense Selector Buttons
- 3-push button on front door to select portion amount
- Portion amount independently controlled by dipswitch time setting
- Can be set to manual dispense mode or time dispense
- Increased cabinet height for more storage
- Maintain cheese temperature 140-155F (adjustable)
